

INTRODUCING OUR LATEST INNOVATION

TTS-SWH SERIES

The new TTS-SWH Series provides businesses with another space saving option for their water heating solution. Our wall hung configuration brings even more space savings without sacrificing hot water delivery and continues to provide redundancy found in our standard TTS models.

Features & Benefits

- OPC (One Point of Connection) for water, recirculation return line, power, gas, venting & condensation drain
- Manifold systems
- Hot water outlet, cold water inlet, gas, and condensate drain
- Building recirculation
- Reduction in labor hours
- Includes wall bracket
- Worry-free installation
- Desiry 1100 inocumation
- Designed to fit through 3'-0" x 7'-0" door
- Pre-engineered system
- Pre-configured control wiring
- Pre-installed system controllers
- Warranty
- 10 years heat exchanger per tankless unit
- 5 years water heater parts & components - 3 year circulation pump
- 1 year labor
- Additional included accessories:
- Condensate neutralizer (Qty 1)
- Expansion tank (Non-ASME)
- 4.5 gallon (TTS-S2MINI/3/4MINI Models)

Providing Hot Water Solutions Since 2001

FRG has pioneered comprehensive plumbing solutions and programs custom designed for each type of businesses. We are the leader in providing single-source turnkey solutions to companies nationwide. Facilities Resource Group stays focused on your operational needs and bottom line.

Water Quality

Providing water quality solutions extending the operational life of water systems as well as site equipment.

Services

Engineered and planned maintenance solutions for all commercial water heating needs.

What is TTS? The Total Tankless Solution

Offering high performance tankless rack systems as well as options to pair with a storage tank, the TTS Synergy Series offers industry leading performance in a wide range of configurations. Commercial Tankless engineering meets high performance with the TTS Synergy Series.

OPC - One Point of Connection

- Water
- Power
- Gas
- Venting Condensate Drain
- Building Recirculation

Manifold System

 Hot Water Outlet Cold Water Inlet

Gas

• Pre-Piped Condensate Drains

Smallest Footprint

- Space Savings
- Most Compact Design
- Building Recirculation

Additional Features:

- · Reduction in Labor Hours
- Worry-Free Installation

Why Synergy?

We're synergyzing multiple technologies and resources for the BEST commercial water heater systems available.

TTS-S2MINI and TTS-S4MINI Series

FRG's TTS MINI Series provide the most complete commercial water heater solution in the market. Each TTS Mini system provides businesses with unlimited hot water in the smallest footprint while having the advantage of redundancy and equalizing heating performance.

Features

- OPC (One Point of Connection) Pre-Installed system - Water, Recirculation Return controllers Line, Power, Gas, Venting & • Warranty **Condensation Drain**
- Manifold systems - Hot Water Outlet, Cold Water Inlet. Gas. Condensate & Components
- Building recirculation • Reduction in labor hours
- Designed to fit through 3'-0" Condensate Neutralizer
- wiring

- 10 Years Heat Exchanger per Tankless Unit - 5 Years Water Heater Parts
- 3 Year Circulation Pump • 1 Year Labor
- Additional Included Accessories:
- Expansion Tank (Non-ASME) - 4.5 Gallon (TTS-S2MINI/3/4MINI Models)

S Series

The S Series comes with all the necessary equipment needed for a 2 to 6 tankless commercial system.

Features

- One Point of Connection Aluminum Frame
- 2 to 6 Noritz NCC199CDV (GQ60) Tankless Water Heaters with System Controller
- 11/2" Water & Gas Manifolds 3/4" Condensate Drain Manifold
- Expansion Tank Included
- Breaker Box w/ Included Circuit Breakers
- Pump Controller with Timer
- Surge Protector
- Building Recirculation Pump Shutoff Valves
- Well Immersed Thermistors for Easy Monitoring of Building Hot
- Water Performance

TWST Series

The TWST Series provides options for a 2 to 6 tankless water heater system combined with a 120 gallon storage tank to tackle any commercial demand.

Features

- One Point of Connection
- Aluminum Frame
- 2 to 6 Noritz NCC199CDV (GQ60) Tankless Water Heaters with System Controller
- 120 Gallon Storage Tank Included
- 11/2" Water & Gas Manifolds • 3/4" Condensate Drain Manifold • Y - Strainer
- Expansion Tank Included Breaker Box w/ Included Circuit
- Breakers Pump Controller with Timer Surge Protector
- Building Recirculation Pump

· Well Immersed Thermistors for Easy Monitoring of Building Hot

Circulator

Shutoff Valves

Storage Tank Recovery

- Water Performance • 2" Hot Water Supply to Storage
- 2" Cold Make Up Water
- 2" Supply through Pump to
- Tankless 2" Pump Bypass
- Integrated 2" Check Valves
